

Legend

- Town
- Dam or weir
- QLD Basin Salinity Management Strategy End-of-Valley sites
- Watercourse
- Water canal
- Highway
- Local government boundary
- State border
- Environmental value boundary
- Boundary of waters covered by the scheduling document
- Lake or reservoir

Management Intent

- High ecological value (HEV) waters
- Slightly disturbed (SD) waters

Waters in the scheduled area that are not shown as high ecological value or slightly disturbed have an aquatic ecosystem management intent of **moderately disturbed**

Water Type

- Kubarilla Ridge
- Lower Moonie River
- Middle Moonie River
- Upper Moonie River

Key to Environmental Values

- Aquatic Ecosystems
- Infiltration
- Farm Supply
- Stock Water
- Amalgamation
- Human Consumer
- Primary Recreation
- Visual Recreation
- Drinking Water
- Industrial Use
- Cultural & Spiritual Values

Notes:

- Plan refers to Queensland waters. Roads and other infrastructure are exempt.
- Persistent waters in waterways at cease to flow conditions (i.e. waterholes) are considered to be high ecological value (HEV), excluding waters exempt from the Environmental Protection (Water and Wetland Biodiversity) Policy 2019 (refer section 11.53).
- Wetlands shown on this map are sourced from the Queensland Wetland Data Version 5.0 developed by the Queensland Wetlands Program. Refer to the WetlandInfo website (wetlandinfo.qld.gov.au) for the most current information on Queensland wetlands.
- Reference should be made to Matters of State Environmental Significance (MSES) datasets for a full coverage of MSES wetlands, available at: <https://qgispatial.information.qld.gov.au>.
