

WARNING This map must not be used for marine navigation. Comprehensive and updated navigation information should be obtained from published hydrographic charts.

Bathurst and Ninian Bays

Bathurst Bay Draining Creeks Including Muck River

North Jeannie Coastal Creeks Outside National Park Including Horwicks River and Wakooka Creek

Jeannie River

Starcke River

McIvor and Morgan Rivers And Coastal Creeks

NORMANBY RIVER BASIN
For Normanby River Basin, refer to plan WQ1051

Jeannie Estuaries Including Horwicks, Starcke, Dead Dog and Other Estuaries

Port of Cape Flattery Marine Waters

Cape Flattery Dune Lakes

Landside of Port of Cape Flattery

For Endeavour River Basin, refer to plan WQ1071

Waters in National Parks, Conservation Estates:

Legend

- Town
- Dam or weir
- Road
- Watercourse
- Maritime Safety Old port limits
- Environmental value boundary
- Local government boundary
- Indicative reef boundary
- Boundary of the waters covered by the scheduling document
- Management intent
- High ecological value (HEV) waters
- Slightly disturbed (SD) waters

Water Types - Fresh waters

- Fresh waters - Jack River and Beattie Creek
- Fresh waters - Marrett River, Sandwood and Birthday Creeks
- Fresh waters - Normanby River Battlemore reach
- Lakes / reservoirs

Water Types - Marine / estuarine waters

- Wetlands (pasture)
- Dune lakes
- Middle estuary
- Lower estuary / Enclosed coastal waters
- Open coastal waters
- Mangrove
- Offshore

Key to Environmental Values

- Animals: Ecocysteams, Irrigation, Farm Supply, Stock Water, Aquaculture, Human Consumer
- Visual: Recreation, Drinking Water, Industrial Use, Cultural & Spiritual Values
- Primary: Recreation

Notes:

- Plan refers to Queensland waters. Roads and other infrastructure are exempt.
- For waters in undeveloped reaches not shown as high ecological value or slightly disturbed, where waters are in unmodified or minimally disturbed condition, the intent is to at least maintain existing water quality (refer accompanying schedule document). For waters in developed reaches the intent is to achieve the specified water quality objectives (moderately disturbed).
- Management intent for Dune lakes is to maintain natural condition (HEV).
- HEV waters exclude immediate port areas.
- Wetlands shown on this map are sourced from the Queensland Wetland Data Version 5.0 developed by the Queensland Wetlands Program. Refer to the WetlandInfo website (wetlandinfo.des.qld.gov.au) for the most current information on Queensland wetlands.
- Reference should be made to Matters of State Environmental Significance (MSES) datasets for a full coverage of MSES wetlands, available at: <https://iqdspatial.information.qld.gov.au>.
